Interphone ANGEL LINK

DESCRIZIONE BREVE/ SHORT DESCRIPTION:

Angel Link is a wired satellite GPS tracker and anti-theft system for motorcycles. Powered directly by the bike, it delivers always-on & real-time GPS tracking, theft alerts and ride recording with no mandatory subscription and no batteries to manage. A pre-installed SIM covers 140+ countries. With the premium plan, it adds automatic eCall, full telemetry and advanced navigation — the most complete safety system in the Angel family.

Pack content:

- Angel Link unit
- Charging cable
- User manual
- Accessories

PACK DIMENSIONS (cm)

REASON TO BUY

Most trackers lock you into a subscription from day one. Angel Link doesn't. Connect two cables and core protection is yours with no fee, no commitment, no expiry. Always on, no battery to charge, no signal gaps. When you want more, activate the premium plan for a trip, a season or forever, at one of the most competitive prices on the market. Total freedom.

COMPATIBILITY: Universal

2 USP: MAIN FEATURES FOR SELLIN SPEECH

1. **ALWAYS ON. EVEN WHEN YOU CAN'T REACT.** When connected to the motorcycle, Angel Link can do what no wireless tracker can: detect an accident automatically and alert emergency services without any action from the rider. Available with the premium plan, it's the most advanced level of protection in the Angel family — for riders who want everything covered.

2. **NO SUBSCRIPTION FORCED ON YOU. EVER.** Core protection GPS tracking, theft alerts, ride recording — is yours from day one, no fee required. Activate the premium plan for a trip, a season or forever. You decide if, when and for how long.

5 MAIN TECHNICAL FEATURES

1. **Direct 12V power** — always on, no charging needed
2. **Active anti-theft** — instant app alert on any movement
3. **Real-time GPS tracking + Ride recording** — see motorcycle position in real-time and every journey automatically saved
4. **Automatic eCall + full telemetry** — crash detection & riding data (premium)
5. **Pre-installed SIM card** — active in 140+ countries, no extra cost
